

TTouch Method Lecture & Demonstration

An Evening with Linda Tellington-Jones,
internationally renowned teacher, author and visionary founder of
the Tellington TTouch Method

Paws4Ever Learning Center, 6311 Nicks Road, Mebane, NC

Friday, April 9, 2010 7-9pm

Linda Tellington-Jones will speak about and demonstrate the Tellington TTouch Method with Paws4Ever shelter dogs and cats. The TTouch Method was first created 4 decades ago as a system of animal training, healing and communication that allows people to relate to animals in a deeper, more compassionate way – a way that furthers inter-species connection and honors the body, mind and spirit of both animals and their people. It utilizes a variety of techniques of touch, movement and body language to affect behavior, performance, and health, and to increase an animal's willingness and ability to learn in a painless and anxiety-free environment. A portion of the proceeds will benefit Paws4Ever. \$20 per person, at the door. For more information, contact Jenn Merritt at jenn@bluedogk9.com or 919-357-5396
